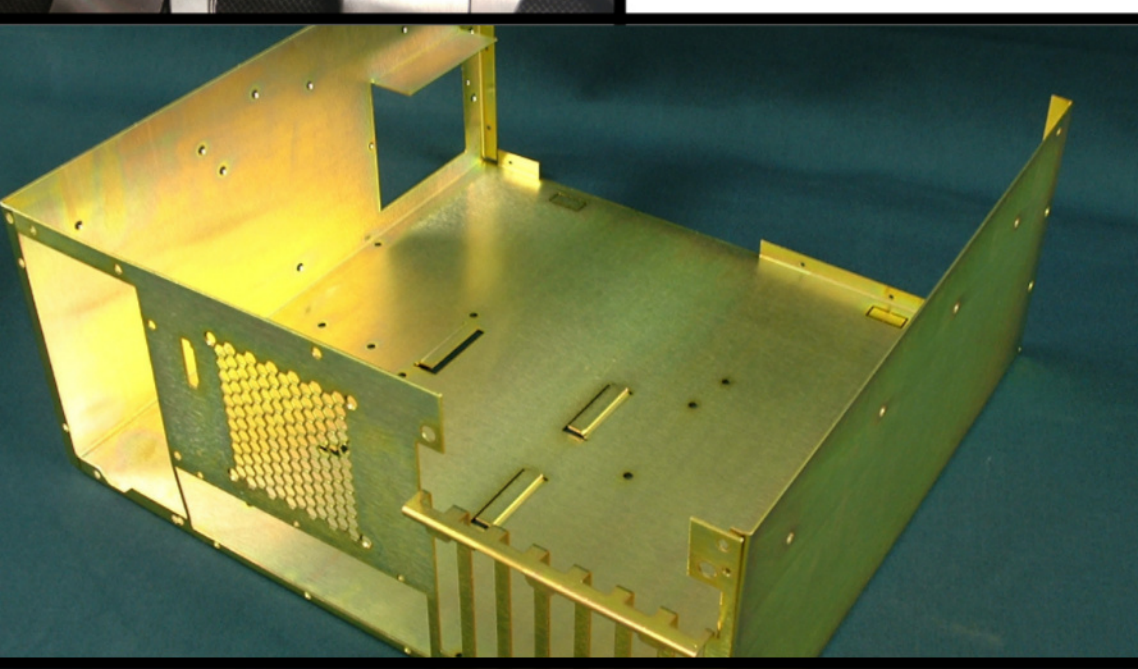
EXACT
FABRICATION, LLC



Exact Fabrication, LLC

Exact Fabrication's primary objective is to provide precision sheet metal fabrications and assemblies for all industries. We have developed an ISO-Certified business system that provides us great control over the manufacturing process.

Exact has grown to include a wide range of processes and capabilities that make it a one stop shop for sheet metal processing. This integrated production offering gives Exact more control over the entire manufacturing process during fabrication of a product.

This allows Exact to:

1. Maintain the highest possible quality with an ISO Quality system and complete control over the process.

2. Maintain control over the scheduling to lower lead-times.

3. Deliver a complete part to save you time in finding multiple organizations to finish a product.

Our 105,000 square foot facility includes:

- Laser Cutting & CNC Punching
- Welding
- Virtek LaserQC Inspection
- Mechanical Assembly
- Electromechanical Assembly
- Wet and Powder Painting
- Zinc Plating & Alodine
- Silk-screening
